

Pre-harvest Health, Safety and First Aid workshop

1 day course • Norwich or onsite

Is your farm safe?

In the last ten years, almost one person a week has been killed as a direct result of agricultural work. Many more have been seriously injured or made ill by their work.

It is an employer's duty to protect the health, safety and welfare of their employees and other people who might be affected by their business. This includes providing sufficient information, instruction and training to employees to allow them to work in a way that does not put themselves or others at risk.

What's covered?

- ▲ Roles and responsibilities of employers and employees
- ▲ Knowing and adhering to health and safety procedures
- ▲ Lone working
- ▲ Working with heavy machinery
- ▲ First Aid knowledge
- ▲ Fatigue and stress
- ▲ Working after dark
