

Changes to Course Length Requirements: First Aid at Work

The minimum length of the First Aid at Work course is to be changed from 4 days to 3 days from 1st October 2009. This is following a consultation exercise carried out by the HSE to establish how to meet the needs of employers, regarding First Aid Training for employees, and minimise the encumbrance on their business. If your first aiders require training before 1st October 2009 then they will still undertake the 4 day course. However, any qualifications gained prior to the changes will still be valid for three years.

Further information can be found on the HSE website and if you'd like to discuss how the changes will affect you contact Wendy or Andy on 01603 861612.
